

Install VirtualBox

Pre-requirement

- An AMD64/Intel64 machine (laptop is better, but desktops are fine too)
- 4GB+ RAM
- Access to the internet from the host machine (wired or wireless)

Download VirtualBox

Download the newest version of VirtualBox from <https://www.virtualbox.org/> (pick the version that matches your hardware)

Troubleshooting

- Common problems can be found here: <https://www.virtualbox.org/manual/ch12.html>
- If problems cannot be solved by referring to the above link, post your questions to Piazza at <https://piazza.com/utah/fall2022/cs6967001fall2022>
