

Playing a Real CTF Game

Update:

Team Name: stevens-cs-577-A

Team Flag: 1OCwyxrsO317OpSKVeWr

VM key and VPN file are available at:

<https://drive.google.com/drive/folders/1kQfsaTxnbqp-McyiAlmGCs1lPdItFPdd?usp=sharing>

Task Description:

You are required to participate in a real CTF game: <https://ictf.gg/>.

Instructions of how to play the CTF game can be found here: <https://ictf.gg/howto>

Twitter of the organizer: <https://twitter.com/UCSBiCTF>

Jun has registered a team called stevens-cs-577-A. The team's FLAG_TOKEN will be shared later. All other information needed to play the game will be shared later.

You are required to play this game between Fri, 3 Dec. 2021, 13:00 **EST** — Fri, 3 Dec. 2021, 22:00 **EST**. **Once the game is done, you need to write a report on what you did and what you achieved.**

- Document the challenges you played
- Describe what you did to solve each challenge and what you found
- Describe the remaining problems or your questions if you cannot solve a challenge

You need to submit the report by Fri, 10 Dec. 2021, 23:59 PM. All questions should be posted to the slack channel we created for the course project.

Note:

There is no requirement regarding how many challenges you solve! Even if you did not solve a single challenge, you may still get the full points. The grading depends on how much time you spend and how much you attempt to do. How to demonstrate the efforts you invest in? Well, your report will show that.

Let's see as a team together, what we can achieve at the end of the semester!!!
